Product Description

This L-shape aluminum hardware profile corner joint connector is specifically designed for screen window sashes and frames. Made of aluminum, it offers durability and resistance to corrosion. The L-shape design allows for a seamless connection between the sash and the frame of the screen window.

It provides stability and strength to the overall structure, ensuring that the screen window remains intact during use. This connector is easy to install and helps to maintain the proper alignment of the sash and frame. It is an essential component for a well-functioning screen window, enhancing its performance and longevity.

Support mold customization

Quick Details

Shape: L-shape
