- Supports mold customization for specific requirements

Product Specifications

Attribute	Value
Material	6063-T5 primary aluminum
Usage	Aluminum profile doors and windows
Function	Connecting the corner of door/window frames
Surface Treatment	Optional aluminum surface/surface sandblasting
Packing	Carton Box (500pcs/carton or custom)
Warranty	2 years

Product Description

This aluminum corner joint is specifically engineered for outward-opening casement windows, providing crucial structural support at window corners. The 6063-T5 aluminum construction offers exceptional durability and resistance to wear, ensuring long-term performance and stability for your window systems.

Technical Details

The design features a bottom that rises up to both sides when screws are tightened, creating optimal stability. Our product supports mold customization to meet specific project requirements, making it ideal for various architectural applications.
