Product Description

This is a 50 Series aluminum hardware corner joint designed specifically for sliding doors. The corner joint is made of aluminum, which is lightweight yet strong. It has undergone surface sandblasting treatment, which not only gives it a unique and aesthetically pleasing look but also enhances its durability.

This corner joint is crucial for the proper assembly and smooth operation of the sliding door. It helps to ensure that the door remains stable and functions properly. The 50 Series specification ensures compatibility with a particular type of sliding door design.

Support mold customization
