Product Description

This 35×35 aluminum hardware corner connector joint is specifically designed for folding doors in exhibition halls. The aluminum material offers durability and a sleek appearance. This corner connector joint is crucial for ensuring the structural integrity of the folding doors in the exhibition hall environment. It creates a secure connection at the corners, enabling the smooth folding and unfolding of the doors. This is important for the functionality and aesthetic appeal of the exhibition hall's interior design.

Support mold customization
