Product Description

This is a V-type aluminum profile hardware corner joint with a height of 30mm. It is specifically made for sliding doors and windows. The V-type configuration enables it to fit precisely and form a firm connection. The aluminum profile gives it durability and excellent resistance against corrosion. This corner joint is essential for maintaining the structural integrity and ensuring the smooth operation of sliding doors and windows. By providing a secure connection at the corners, it allows the doors and windows to function correctly.
