Product Description

Height 9.5mm Heavy-Duty V-Shaped 6063T5 Aluminium Corner for Window Frame Connecting

Height 15mm V-type slim profile connector with aluminium inner connectors is designed for office buildings. This connector features a sleek and slim profile with a height of only 15 millimeters. The use of aluminium for the inner connectors provides durability and a high-quality finish. It is an ideal choice for office building installations where a refined and efficient connection solution is required. The V-type design may offer specific advantages in terms of ease of installation or improved connectivity. Overall, this connector combines functionality and aesthetics to meet the needs of modern office environments.

Support mold customization
