Product Description

This is an aluminum hardware profile corner joint connector. It is specifically designed for use at the corners of casement windows and doors. The aluminum material provides durability and a sleek appearance.

This corner joint connector is crucial for ensuring the structural integrity of casement windows and doors. It creates a secure connection at the corners, enabling the proper functioning and smooth operation of the casement mechanisms. This is important for both the security and aesthetic appeal of the windows and doors.

Support mold customization
