Product Description

This is a corner connector made of an aluminum profile with a thickness of 2mm. It features a modern design. This connector is specifically used for joining window and door frames. The 2mm thickness provides a certain level of strength and durability. The aluminum material is lightweight yet sturdy, and it also has good corrosion resistance. The modern design not only gives it an aesthetically pleasing look but also ensures a seamless and efficient connection for the window and door frames. This helps in enhancing the overall quality and appearance of the frames.

Support mold customization

Quick Details
