Type	Solar Panel Mounting Aluminum Rail Connector

Product Description

The Modern Design Solar Panel Mounting Connector for Photovoltaic Film End Clamp and Mid Clamp is a sleek and innovative product. It is crafted with precision to ensure a seamless connection between the photovoltaic film and the mounting structure.

The modern design not only enhances the aesthetic appeal but also provides superior functionality. This connector is made from high-quality materials that are durable and weather-resistant, making it ideal for long-term use in outdoor environments. It is specifically designed to work with end clamps and mid clamps, providing a secure and stable hold for the photovoltaic film.

Support mold customization

Quick Details

Design: Modern and sleek.

Material: High-quality, durable and weather-resistant.

Function: Connects photovoltaic film to end and mid clamps.

Compatibility: Works with various types of photovoltaic films.

Installation: Easy to install and adjust.

Specification

Accessory Name	Function	Features
Rail	Support and fix solar panels	High strength and corrosion resistance.
Mid clamp	Connect and fix solar panels	Made of aluminum alloy, ensuring stability.
Solar clamp	Fix solar panels	High strength and corrosion resistance.
Connectors	Connect various components	Improve the stability and reliability of the solar mounting system.
Bases	Support the entire system	Made of aluminum alloy and corrosion-resistant.
Aluminum nuts	Fix various components	High strength and corrosion resistance.

The image shows two custom-machined aluminum brackets. The bracket on the left is designed with two threaded inserts for screws and features a blue arrow pointing upwards. The bracket on the right is secured with two hex bolts and has a blue 'X' mark on its side. Both are made from a silver-colored metal, likely aluminum, and are set against a plain white background.

Company Profile

Foshan Xuanqing Company is a company that specializes in manufacturing aluminum accessories for photovoltaic systems. It can customize molds for accessories such as mid clamps and side clamps.

The company has a production base of 4500 square meters and a fully modern production line, including 13 automatic lines, 3 ordinary production lines, and 36 stamping equipment. It has strong production strength.
