Product Description

The Solar Panel Mounting Aluminum Rail Connector for Trapezoidal Profile Mini Rail System is a crucial component in solar panel installations. Made of high-quality aluminum, this connector is designed to securely join the aluminum rails of the mini rail system, ensuring a stable and reliable mounting for solar panels. The trapezoidal profile of the rails provides added strength and stability. With its precise engineering and durable construction, this connector is an essential part of a successful solar panel mounting solution.

Support mold customization

Quick Details

Material: Aluminum

Function: Connector for solar panel mounting rails

Profile: Trapezoidal

Advantage: Durable, secure connection, suitable for mini rail system

Application: Solar panel installations

Specifications

Accessory Name	Function	Features
Rail	Support and fix solar panels	High strength and corrosion resistance
Mid clamp	Connect and fix solar panels	Made of aluminum alloy, ensuring stability
Solar clamp	Fix solar panels	High strength and corrosion resistance
Connectors	Connect various components	Improve the stability and reliability of the solar mounting system
Bases	Support the entire system	Made of aluminum alloy and corrosion-resistant
Aluminum nuts	Fix various components	High strength and corrosion resistance
