Function	Connecting the corner of the door or window spelling
Feature	Durable and solid
Packing	Carton Box
Surface treatment	Optional aluminum surface/surface sandblasting

Product Description

This sliding window screen corner joint, doubling as an aluminium window corner bracket, stands at a height of precisely 14mm. It serves as a vital piece of hardware for sliding windows, playing a crucial role in maintaining the structural stability of the window screen.

Constructed from high-quality aluminium, this corner bracket offers a robust and reliable connection at the screen's corners. Its 14mm height is meticulously engineered to ensure a seamless fit with the window frame and other components, facilitating smooth sliding motion of the window. The lightweight yet sturdy nature of the aluminium material not only makes it resistant to corrosion but also enables it to withstand various environmental conditions, ensuring long-lasting performance.

Quick Details

Product: Sliding Window Screen Corner Joint and Aluminium Window Corner Bracket

Height Specification: 14mm

Category: Hardware for sliding window systems

Material: Aluminium

Function: Establishes and reinforces corner connections of sliding window screens, enabling smooth sliding

Benefits: Lightweight build, high durability, corrosion resistance, precise fit, structural integrity provision

Usage Scenarios: Installation, repair, and maintenance of sliding window screens

Specification
