Color	Primary Colors
Usage Scenarios	Aluminum Profile Doors And Windows
Function	Connecting The Corner Of The Door Or Window Spelling
Feature	Durable And Solid
Packing	Carton Box
Surface Treatment	Optional Aluminum Surface/surface Sandblasting

Product Description

This product is an OEM-manufactured corner joint designed for mirror frames, doors, and window structures, crafted from high-quality 6063-T5 primary aluminum. The 6063-T5 aluminum alloy offers excellent corrosion resistance, moderate strength, and superior formability, making it ideal for precision architectural and decorative applications.

The corner joint serves as a critical structural component, ensuring secure connections between frame sections while enhancing the aesthetic appeal of mirror frames, doors, or windows. Its smooth surface finish and precise engineering allow for easy installation and compatibility with various design styles, combining functionality with visual elegance in residential or commercial settings.

Quick Details

Product Type: OEM Aluminum Corner Joint for Mirror Frames, Doors & Windows

Material: 6063-T5 Primary Aluminum (high corrosion resistance, formability, and strength)

Application: Structural and decorative connections in mirror frames, door/window systems

Key Features: Precise engineering for secure frame connections. Smooth surface finish. Easy installation. Versatile design compatibility.

Industry: Architecture, Interior Design, Construction, Home Improvement
