Pin Material	304 Stainless Steel
Open Angle	0-270°
Package	50pcs/knit Bag
Highlight	Ball Bearing Stainless Steel Hinge, 6 Inch Stainless Steel Hinge, Doors Ball Bearing Hinge 4 Inch

Product Description

Stainless Steel 201/304 Long Continuous Piano Hinges, measuring 36 inches in length with a satin mirror finish, blend durability and aesthetic appeal for doors, windows, and furniture. Available in 201 and 304 stainless steel grades, these hinges feature a seamless, 36-inch design that provides uniform support for medium-sized fixtures.

Quick Details

Length: 36 Inches (914.4mm)

Material Grades:

201 Stainless Steel: Cost-efficient for dry indoor use (e.g., cabinets, interior doors)

304 Stainless Steel: High corrosion resistance for humid or outdoor settings (e.g., bathrooms, outdoor gates)

Finish: Satin Mirror (low-gloss, semi-reflective surface)

Key Features:

Continuous design for uniform weight support across 36 inches

Satin mirror finish reduces smudges and enhances aesthetic versatility

201 grade suits light to medium loads; 304 grade handles harsher conditions

Optional pre-drilled holes for easy installation

The satin mirror finish--a low-gloss, semi-reflective polish--offers a modern look while resisting fingerprints and light scratches, making it suitable for both decorative and functional use.

201 stainless steel provides cost-effective strength for general indoor applications, such as kitchen cabinets or residential doors, while 304 stainless steel offers superior corrosion resistance for humid environments or outdoor fixtures. The continuous structure ensures even weight distribution, minimizing stress on attachment points, and pre-drilled holes (if specified) simplify installation.

This hinge combines robust performance with a sleek, contemporary finish, ideal for commercial, residential, or hospitality projects requiring both reliability and style.

Specification

Material	Stainless steel 304
Size	508*50*1.5mm
Pin dia	3.0mm
Package	50pcs/knit bag
