Product Description

Experience structural integrity with our 60 Series Corner Reinforcement Angle Bracket. Forged from industrial-grade 201 stainless steel, this engineer-certified bracket prevents frame deformation in window screens, security doors, and balcony enclosures.

The 1.5mm thick design features triple-rivet reinforcement points and nanocoated satin finish to combat fingerprints and salt corrosion. Optimized for 60 Series profiles, it eliminates corner wobble while adding 300% rigidity versus standard aluminum brackets. CNC laser cutting ensures $90^{\circ} \pm 0.2^{\circ}$ accuracy for professional glazing installations. Rated for hurricane-prone areas (tested to 110mph wind load).
