Product Description

Our Premium Aluminum Alloy Safety Tether Wire provides essential fall prevention protection for modern office casement windows. This robust tether effectively child-proofs accessible openings while maintaining a sleek, unobtrusive profile. Engineered from high-strength, lightweight aluminum alloy, the tether withstands significant force while restricting window opening to a secure ventilation gap. This allows fresh air circulation while preventing accidental falls or unauthorized exit by children and pets.

The corrosion-resistant construction ensures long-lasting reliability in any environment. Designed for easy, tool-free installation without damaging window frames, this safety device combines ultimate security with minimalist design.
