Product Description

AluFit 6063-T5 Primary Corner Connector – For Aluminium & UPVC Doors/Windows

Product Overview

The AluFit 6063-T5 Primary Corner Connector is a high-performance joining solution engineered for seamless assembly of aluminium and UPVC doors and windows. Crafted from premium 6063-T5 primary aluminium, this connector boasts exceptional structural integrity and corrosion resistance, ensuring long-lasting stability in both residential and commercial installations. Its precision-machined design guarantees a tight, secure fit between frame sections, eliminating gaps and enhancing the overall structural rigidity of door and window systems. Whether you're a professional installer or a DIY enthusiast, the AluFit Corner Connector simplifies installation with its user-friendly design, making it an ideal choice for achieving professional-grade results with minimal effort.

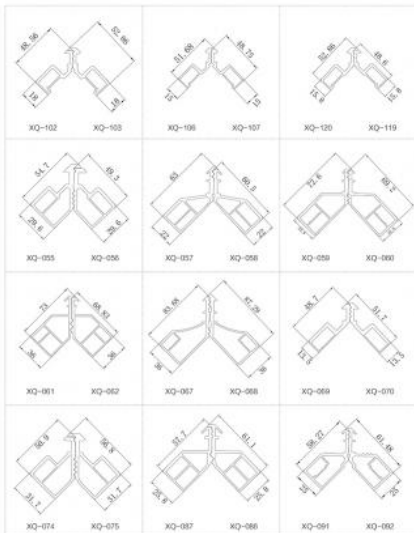

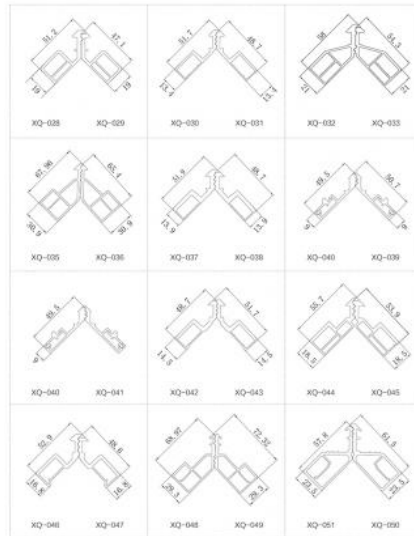

Key Features

- Material: 6063-T5 primary aluminum for superior durability
- Compatible with both aluminium and UPVC materials
- Essential for proper corner installation in door and window frames
- Available with optional surface treatments (aluminum surface/sandblasting)
- Supports mold customization for specific project requirements
