Product Description

PrimeAlu 6063-T5 Corner Bracket – Aluminium/UPVC Door & Window Fitting

Product Overview

The PrimeAlu 6063-T5 Corner Bracket is a heavy-duty structural component designed to reinforce and secure corners of aluminium and UPVC door and window frames. Built from 6063-T5 primary aluminium, this bracket combines rugged durability with a sleek, low-profile design, making it both a functional support piece and a discreet addition to any frame system. It excels in distributing weight evenly across corner joints, preventing warping or loosening over time, and is suitable for high-traffic areas where stability is paramount. Whether used in new constructions or retrofits, the PrimeAlu Corner Bracket delivers reliable performance, ensuring your doors and windows remain sturdy and well-aligned for years to come.

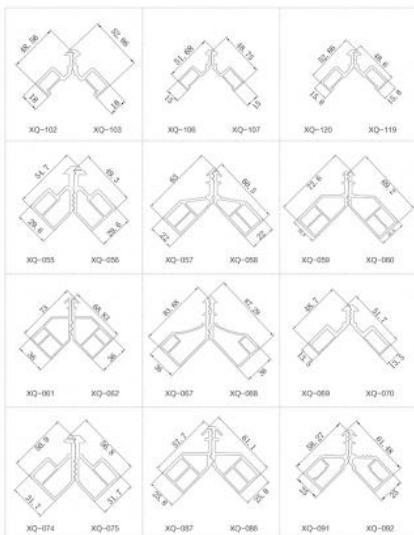

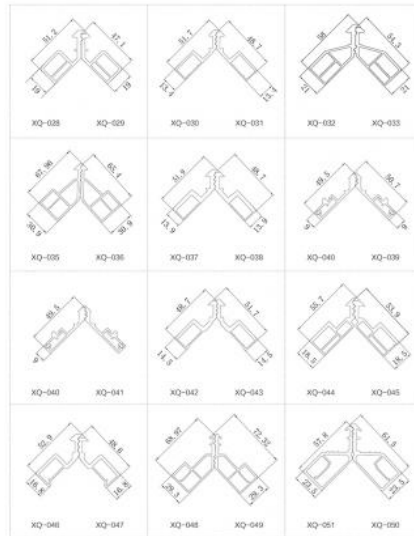

Key Features

- Material: 6063-T5 primary aluminum for superior durability
- Compatible with both aluminium and UPVC materials
- Essential for proper corner installation in door and window frames
- Available with optional surface treatments (aluminum surface/sandblasting)
- Supports mold customization for specific project requirements
