Product Description

50 Series Aluminium Double-Hole Corner Connectors for Sliding Door & Window Accessories

Product Overview

50 Series Corner Connectors are precision-engineered, high-strength aluminum brackets designed to create robust 90° joints in aluminum sliding door and window frames. Specifically built for compatibility with standard **50mm profile systems**, these double-hole connectors ensure exceptional structural integrity, precise alignment, and long-lasting stability for smooth-operating sliding systems. Their corrosion-resistant aluminum construction guarantees durability in diverse climates, making them an essential hardware component for professional installers and manufacturers of premium fenestration products.

Key Features

- Designed specifically for 50 series sliding doors and windows
- Double-hole design for stable, reinforced connections
- Made from 6063-T5 primary aluminum - lightweight yet strong
- Corrosion resistant with optional surface treatments available
- Seamless integration with profile structures for better sealing
- Supports mold customization for specialized applications

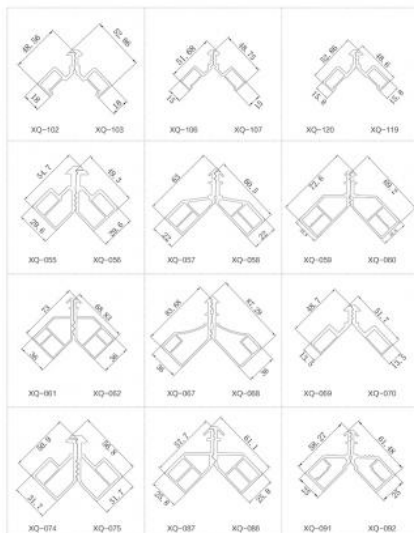

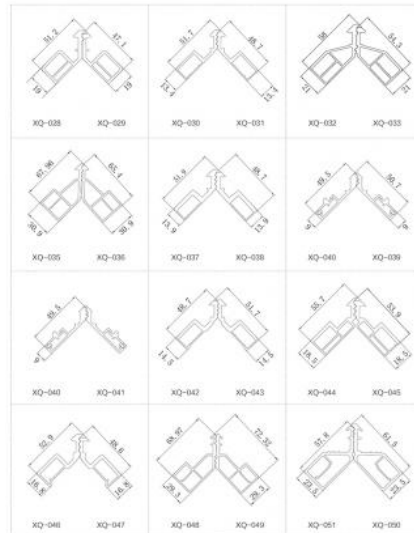

Product Specifications

Attribute	Value
Material	6063-T5 Primary Aluminum
Color	Primary Colors
Surface Treatment	Optional Aluminum Surface/Surface Sandblasting
